

Escape Equestrian Community

Escape

Equestrian Living With A Difference

Escape is a 200 acre private, gated equestrian community that will be located in the northern emirate of Ajman. The 8.2 million square foot development features over 500 luxury villas, town houses, low rise apartment buildings, an equestrian-themed boutique hotel, the Hoofbeat™ Activities Center, an equine spa and therapy center, and some of the best equestrian and sports facilities in the UAE including stabling for 200 horses.

Just 30 minutes from downtown Dubai, and located on the Ajman-Sharjah border along the Emirates Road, Escape will be convenient to major urban transport and business hubs as well as world-class dining and entertainment. Yet the community will remain a world apart as it can offer a country, outdoor lifestyle that is unique to the Arabian Gulf region.

Bridle paths as well as jogging and biking trails will be designed to meander through the development, and all villas will enjoy natural views that look out at extensive landscaping and green open areas. Residents of Escape will have the use of a wide variety of sports arenas, riding indoor and outdoor facilities, and the Hoofbeat™ Activities Center which will feature fun and unique equestrian-themed games, experiences and activities that are fun for the whole family.

Escape was conceptualized and is being developed by Equine Management Services, one of the world's leading developers of equine communities. The project was launched in January 2007, and is set to be completed at the end of 2010.
